Best students results: Eugenia Karas (World Championship (rapid) 2022 U14) – 1st place, World Championship (blitz U14) 2022 - 3rd place.

In coaching, I try to use an individual approach, taking into account age, chess level of the students and their personalities. When I work with beginners, I really try to bring them love for chess.

We start with the basics, general principles of development, endings and middlegame, tactical ideas, including openings for stronger players later on. Students receive homework and all the material reviewed in class so that they can repeat and review anytime later.
